School Town of Highland is Live on Atrium

School Town of Highland is located in Highland, Indiana and composed of 6 schools. This customer chose Atrium ASP to offer the students and teachers a Web-based software solution that would provide ease of use, great reports, many OPAC themes and so much more. Providing the students and teachers access from home or anywhere they have Internet access was a major reason for the move to Atrium. The move supports their goals and desires to provide the students the information they need for the future.

Book Systems Inc. provides affordable feature-rich library and textbook software that delivers solutions to libraries and schools of all sizes. Our software is suited to fit the needs of librarians in a technology-driven world, while still being easy to learn and user-friendly. Atrium offers a graphical circulation desk, quick cataloging, MARC editing, analysis, easy-to-create reports, and theme choices. There are also additional modules available for serials and acquisitions. Our software provides more features and demands fewer resources. Book Systems is dedicated to quality and customer satisfaction and has implemented library automation solutions in thousands of libraries around the world. The company's philosophy is very simple: create quality products; test them with input and direction from librarians in the field, and back them up with renowned customer service and support. Further information is available at www.booksys.com.
