

For us, it really is “all about you.”

Virtual Server Specifications

Minimum Requirements For Atrium and Booktracks:

Supported Virtualization Software: VMware vSphere™ 6.5+ with current VMware support contract*

Server OS: Debian Linux x64, Windows Server® 2008, 2012, and 2016 (Please Contact Book Systems for more details.)

# of Locations Components	1-10 Locations**	10+ Locations**	
		Application Server	Database Server
CPU	4 vCPU	4 vCPU	4 vCPU
RAM	8GB	8GB	8GB
Disk Space	100GB	20GB	100GB

Note: Virtual Server must be dedicated to run only Atrium and Booktracks software products from Book Systems.

Workstation System Requirements For Atrium:

Monitor: 1024 x 768 resolution or higher

PDF Reader: Adobe Acrobat Reader or equivalent PDF reader

Supported Platforms: Windows 7, Windows 8, Windows 10, and Macintosh OS (latest two releases)

Supported Browsers: Current versions of Microsoft Edge, Mozilla Firefox, Google Chrome and Apple Safari

*If you wish to use something other than VMware’s vSphere (such as HyperV), you may do so but should something happen, we cannot recreate your virtual environment and therefore you will be required to sign a non-compliance waiver.

**If you have a large amount of circulation (even with a relatively small number of locations), Book Systems would recommend that you switch to the 10+ Locations section as higher circulation numbers do impact performance.
